

MARSHA FOUST
23 years of MIC
mfoutz@commspeed.net

11/21/10

I have been making ceramic chess sets and tic-tac-toe sets for Made in Clarkdale since the first show. We started with 16 artists and Ellie and I are the only ones left. The first show inspired me to make my first game set, as it seemed like a "holiday thing" to do. My first set involved farmers and my latest chess set involved Pirates and Cruisers (2 years ago). Other than the full 32 piece chess sets, I also make 9 piece tic tac toe sets.

I will not disclose what I am doing this year- many folks enjoy the surprise.

I also teach art at Oak Creek Ranch School (small boarding school) and have done this for many years. My students range from 6th -12th grades. Before MIC begins, I train my students to work with clay and they become teachers to the elementary students who attend the workshops at MIC.
